Alusion

Alusion® is Antaria's Aluminium Oxide, it is a free-flowing off-white powder with hexagonal crystal structure. It offers improved characteristics, including, Improved Aesthetics/Feel. Antaria has developed a provisional patent which has proven that our Alusion combined with our ZinClear XP powder provides an SPF boost in end sunscreen and cosmetic products. Alusion® is ECOCERT COSMOS approved mineral and is used for its absorbing properties and waterproof nature, it also functions as an anti-caking and absorbing agent. It is found in many make-up products such as blush, powder foundation, lipstick and facial cleanser.

We have under development new high purity Alusion trials and are working on a lower cost Alusion Product as well.

On behalf of all the Antaria team we wish you and your family a very Merry Christmas and a very safe and Happy New Year.
